ANOTHER WONDERFUL CURE!

PHILADELPHIA, April 9, 1846.

Last August a year, I caught a violent cold, in consequence of getting wet in a shower of rain. A circumstance so common gave me no immediate concern, supposing that I should soon get rid of it. On the contrary, however, I daily grew worse; a violent cough set in, then pain in my breast and between my shoulders. I now suffered great oppression from the great secretion of purulent matter in my lungs. I became greatly alarmed; and my friends considered my situation extremely critical, the more so as loss of appetite, hectic fever, and night sweats rendered me as weak as a child, and at night the sweat literally poured off me! This was my condition when I commenced using "Thomson's Compound Syrup of Tar and Wood Naphtha." I procured one bottle, and experienced so much benefit that I resolved to continue it. It is now six months since I ceased using the medicine, and the cure remains perfect. I firmly believe this medicine is far superior to every other remedy for Consumption of the Lungs.

J. J. CHAMBERLAIN, No. 8, Carberry street.

Affirmed and subscribed this, 9th day of April, 1046, 5-6. In the year 1838, when the cholera was in Charleston, S. C., I was compelled to send a servant to the city. On his return, he was suddenly attacked with most violent pain in his bowels, so much so as to cause apprehension that he would expire in a short time, if medical aid could not be procured: I immediately resorted to the Colleton Bitters, by giving a wine glass full at a dose. In the course of a very short time it acted as an emetic, and throwing him at the same time into a profuse perspiration. I then continued to give it in small doses, from too to three tea spoonsfull, which resulted in a happy reformery. Since then I have been using it constants infantum, diarrhesa and general debility, and in JOHN SWIFT, Mayor of Philadelphia.
